Whirlpool

Flexio Bath Concept

New back massage and air jet system with quick connections

Lie back and relax. The new Flexio system is easily installed with the use of quick connections for both the back massage and air jet system. Flexio can easily be incorporated with the Visio® Bath Concept for a complete glueless whirlpool system.

Front options

We have a wide range of front options for the Flexio back massage system. For full overview of fronts see "Mini jet 2" and "Micro and Macro jets" on our website www.hydroair.dk.

Low cost

Keep your stock and costs down. Many of the fittings are universal and can be used for both water and air systems.

Environmentally and production friendly

The system is based on quick connections. This eliminates gluing and saves time in the production process.

Easy installation

Green development

Glueless quick-fit installation

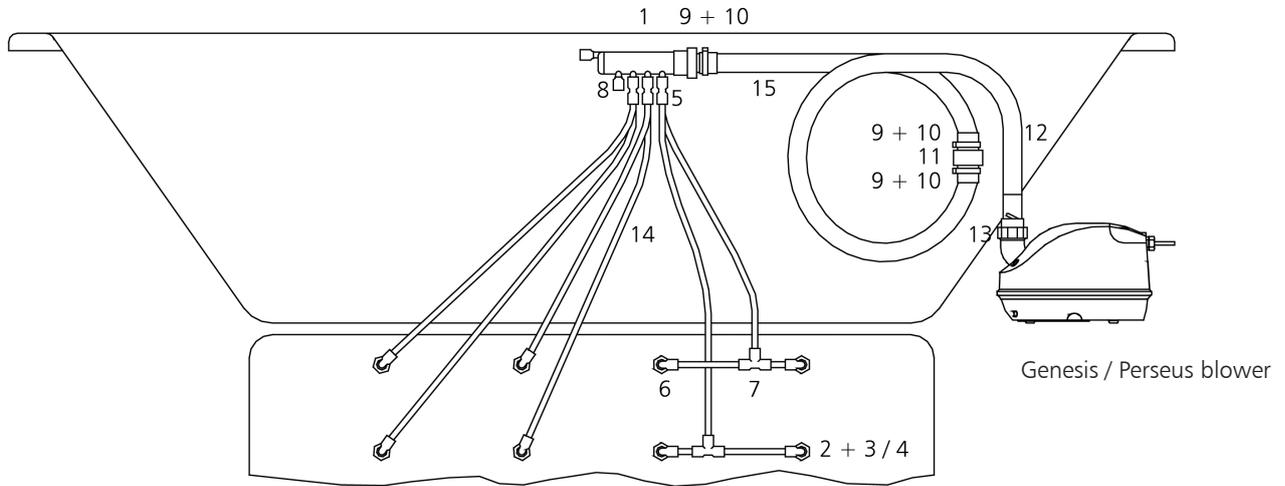

Reduced assembly time

Universal fittings for both water and air system

Flexio Bath Concept

Installation guideline

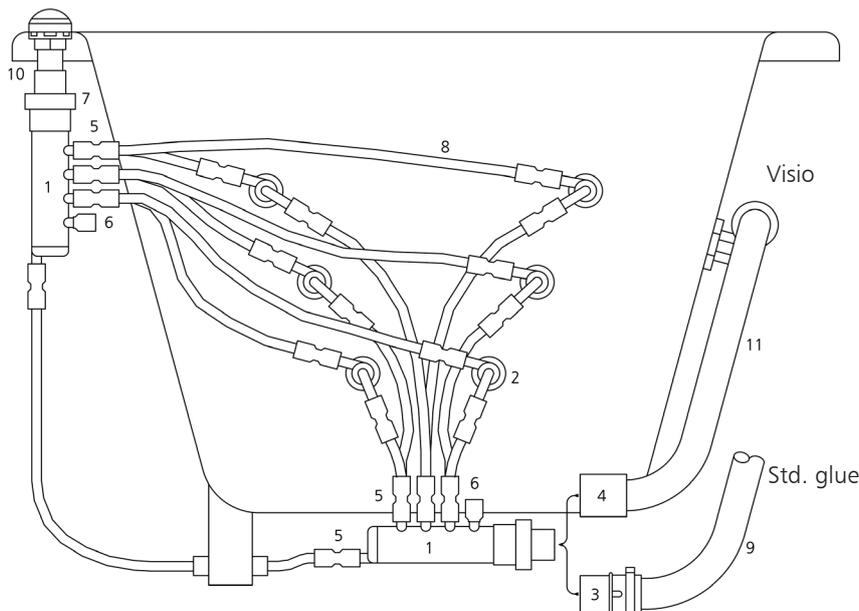

Suggestion on how to mount air jet system on a whirlpool

1	20-8999	Flexio manifold	9	20-0607	Hose cuff
